

Know your *Risk*

Do you know your risk from flooding and other storm-related hazards?

- Is your property near an area prone to flooding?
- Do you regularly use one of the major streets vulnerable to flooding and storm-related damage?
- Are there possible erosion problems on or near your property?
- Do you live near the hillsides that burned during the Poinsettia Fire?

If you answered yes to any of these questions, you could be at a higher than normal risk of storm-related hazards. Check the city website www.carlsbadca.gov (search "El Niño") for a link to a FEMA flood map where you can look up your address and to see a larger version of the map to the right.
